

## ASSIGNMENT 2: Draw your Home Network Topology and explain how you are accessing the RPS lab Environment?

### HOME NETWORK TOPOLOGY:

I have done the Home Network Topology with the help of Lucid chart.

### How you are accessing the RPS lab Environment:

- VPN is used to access the RPS lab environment securely from your home network.
- To Access RPS lab Environment the Remote Desktop Protocol (RDP) is used to access the lab environment
- This allows to control a remote computer located in the lab as if I were physically present at its location.
- It will ask the username and password to authenticate ours and gain access to the lab resources Once authenticated, I have access to the resources available in the lab

These are the steps involves to access RPS lab Environment.
